# A BILL

To enhance the strategic partnership between the United States and Israel.

1       *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4       This Act may be cited as the “United States-Israel  
5 Strategic Partnership Act of 2014”.

6 **SEC. 2. FINDINGS.**

7       Congress makes the following findings:

8               (1) The people and the Governments of the  
9       United States and of Israel share a deep and un-  
10      breakable bond, forged by over 60 years of shared  
11      interests and shared values.

12              (2) Today, the people and Governments of the  
13       United States and of Israel are facing a dynamic  
14      and rapidly changing security environment in the  
15       Middle East and North Africa, necessitating deeper  
16      cooperation on a range of defense, security, and in-  
17      telligence matters.

18              (3) From Gaza, Hamas continues to deny  
19       Israel’s right to exist and persists in firing rockets  
20      indiscriminately at population centers in Israel.

21              (4) Hezbollah—with support from Iran—con-  
22      tinues to stockpile rockets and may be seeking to ex-  
23      ploit the tragic and volatile security situation within  
24      Syria.

1                         (5) The Government of Iran continues to pose  
2                         a grave threat to the region and the world at large  
3                         with its reckless pursuit of nuclear weapons.

4                         (6) Given these challenges, it is imperative that  
5                         the United States continues to deepen cooperation  
6                         with allies like Israel in pursuit of shared policy ob-  
7                         jectives.

8 **SEC. 3. STATEMENT OF POLICY.**

9                         It is the policy of the United States—

10                         (1) to reaffirm the unwavering support of the  
11                         people and the Government of the United States for  
12                         the security of Israel as a Jewish state;

13                         (2) to reaffirm the principles and objectives en-  
14                         shrined in the United States-Israel Enhanced Secu-  
15                         rity Cooperation Act of 2012 (Public Law 112–150)  
16                         and ensure its implementation to the fullest extent;

17                         (3) to reaffirm the importance of the 2007  
18                         United States-Israel Memorandum of Understanding  
19                         on United States assistance to Israel and the semi-  
20                         annual Strategic Dialogue between the United  
21                         States and Israel;

22                         (4) to pursue every opportunity to deepen co-  
23                         operation with Israel on a range of critical issues in-  
24                         cluding defense, homeland security, energy, and cy-  
25                         bersecurity;

1                         (5) to continue to provide Israel with robust se-  
2                         curity assistance, including for the procurement of  
3                         the Iron Dome Missile Defense System; and

4                         (6) to support the Government of Israel in its  
5                         ongoing efforts to reach a negotiated political settle-  
6                         ment with the Palestinian people that results in two  
7                         states living side-by-side in peace and security.
